HONOLULU, TERRITORY OF HAWAII, WEDNESDAY, DECEMBER 17, 1902

PRICE 5 CENTS.

TO OBTAIN ARMS FOR CADET CORPS

Proposal For Equipment
Of Military Boys
With Rifles.

CAN BE HAD FROM
FEDERAL GOVERNMENT

WILL NOT INTERFERE WITH MILITIA—PLAN IS FOLLOWED IN CALIFORNIA.

An effort will be made during the next session of the Legislature to secure arms for cadet organizations in the city from the United States government appropriation. Kamehameha boys are particularly interested in this program as the enactment of the proposed law will enable them to drill under arms and give to their military training more importance and better knowledge in the school of the soldier. The bill providing for the purchase of arms also comes in for a share in the benefits if desired or the students of any other regularly organized school.

The Federal government now grants some \$4,000 a year for arms and equipment of militia organizations. All that the cadet organizations seek is arms and ammunition, the cost of which would be so small that the income of the Territorial militia would not suffer. This plan is carried out in California and other States and has become popular. E. J. Wilson, commander of the Kamehameha school cadets, has been looking up the question and it is to receive attention at the next officers' meeting of the National Guard.

The general scheme is given in the proposed bill, of which the following are the salient points:

When the trustees of any school or college shall make proper application to the Governor, he is hereby authorized to cause the organization of the male students of any such school or college into battalions, companies and bands, and to cause them to be attached to a regiment of the organized militia of the Territory. Such companies or bands shall consist of not less than fifty cadets in each company, and twenty in each band.

Each company shall consist of one captain, four sergeants, eight corporals, two musicians and thirty-two privates. The bands shall consist of one drum major and nineteen privates.

Major, captains, and lieutenants shall be appointed by the Governor upon the recommendation of the principal or president of the school or college, and commissions shall be issued to them as such, specifying the school or college. Non-commissioned officers shall be appointed by the colonel of the regiment to which attached, upon the recommendation of the commandant of the school or college, and shall be issued warrants. Commissions or warrants shall become void upon graduation, misconduct or upon departure from the school or college. Provided, that the faculty of the school or college shall be the sole judge of misconduct.

Upon such companies being organized as herein provided, the Governor shall cause the ordinance officer of the organized militia to issue to such schools or colleges, out of equipment on hand (or to be hereafter obtained) sufficient rifles, belts and bayonets to properly arm the cadet companies. Arms and accoutrements so issued shall remain the property of the Territory, to be returned to proper authority when needed by the organized forces of the Territory, or when not properly cared for.

Such cadet companies shall not be liable for service, save in time of riot, invasion or rebellion and then only such cadets who shall be eighteen years

REGO GOT OUT-BAND ENTERTAINED KOLOA AND THEN SERENADED SILVA

JOLLY TIME WITH PLENTY TO EAT
NEWS NOTES OF KOLOA DISTRICT—JAPANESE
DROWNED.

Koloa, Kauai, Dec. 16.—On Saturday, Dec. 6, the people here were entertained by the Kapala band, who gave a public concert on the veranda of M. A. Rego's store. It was the first concert for quite a long time, as the Koloa band had taken a vacation and the people appreciated it very much. After the concert Mr. Rego served the musicians with refreshments and they all enjoyed his hospitality. At about half past two o'clock Sunday morning they all left for Eleale under the direction of M. A. Rego and M. Fernandes of Kapala for the purpose of giving J. I. Silva a serenade as he had returned from abroad the previous Sunday. Provisions and refreshments were supplied by M. A. Rego and the company occupied six rigs. At four o'clock they arrived at Eleale and drove silently into the premises of Mr. Silva. After they had unharnessed the horses the band played and Mr. Silva at first thought it only a dream. After a while he dressed himself and when he walked out he was stunned to see his friends coming all the way from Koloa and Kapala to surprise him. After greeting the boys he took them into the house and Mr. Rego with the assistance of a few boys laid out the table and at nine o'clock the festival began. At noon the band returned to Koloa and after playing a few selections returned to Kapala.

Attorney Jos. S. Ferry returned from Hilo last Wednesday after spending a month's vacation.

The weather on Kauai last week was very stormy. A bridge was washed out by a freshet at Kapala and two lives were lost. There was also another freshet in Hulala in which a Japanese was drowned.

Mohammed Khan and his brother, Jamal gave an interesting exhibition of jugglery tricks to the new school-house last Saturday. They will give another this evening.

BISHOP RESTARICK HOLDS SERVICES ON MAUI

Wailuku, Dec. 16.—His Lordship Bishop Restarick preached to large congregations at Lahaina Episcopal Church on Sunday, December 7th, both morning and evening. Four ladies and one young man, all Hawaiians, received the rites of confirmation at the hands of the Bishop, assisted by Rev. Canon Weymouth. His Lordship again preached at the Church of the Good Shepherd at Wailuku last Sunday, December 14th. The church was fairly well filled considering Wailuku weather. The Bishop will return to Honolulu by Thursday's Mauna Loa in order to be present at the Founder's Day exercises at Kamehameha School. During his stay here Bishop Restarick has appointed the following officers of the church to act as a church committee to assist Rev. Canon Ault: C. D. Lufkin, warden; C. B. Wells, treasurer; Jas. N. K. Keola, clerk.

Mrs. James-Campbell Parker has contributed fifty dollars in cash as a merry Christmas gift to the Kaunakakai Sunday school.

Freshets Do Great Damage AND STOP TRAFFIC On Important Roads of Maui

Wailuku, Dec. 16.—After two weeks of fierce and continuous raining on central and eastern Maui the weather is getting clear again, especially in Wailuku, Makawao and Kula districts. There has been very little rain in western Maui, and Lahaina has had but two nights' rain, or just enough to keep the dust from flying on the faces of the court officials and the jurors who are serving without pay, at least until the next Legislature appropriates more money.

Wailuku, Paia and Makawao roads were in a most frightful condition while the rain lasted. The heaviest rain fell on central and east Maui last Thursday. It was accompanied by strong winds. During the night the sea stream rose and inundated the surrounding country so that the people and their property were placed in a most hazardous situation. In fact, a few houses mauka of the Spreckels' stream and on the Waiehe side of the Kula were partly carried away. Judge Kalia's two patches in Iao valley were somewhat destroyed.

There were two big washouts on the Maalaea road and about four on the road from Uluhame to Lahaina. During Thursday no backs could pass the Maalaea road. The freshets rushing down from the mountains made several big cuts in the road, some of them ten feet deep and about as many feet wide.

On the following afternoon Road Supervisor John Kili with a handful of men put the road in serviceable condition again, but only temporarily, and backs were thus enabled to go down to Maalaea Bay. The Olowalu roads were in a worse condition. On the Ukumehame side were several big cuts made by mountain freshets, and there being no outlet into the sea on account of the canefield on the maui side of the road which served as a barrier, the water flooded the road for miles, a condition that perhaps never existed in any other plantation town throughout this Territory. The roads were so bad that even those on horseback met accidents while attempting to pass.

After three days the Lahaina road men repaired the road as best they could and Messrs. J. L. Coke and J. N. K. Keola were the first to attempt to come back from Lahaina in a buggy, and reached Wailuku in safety Saturday afternoon. Hon. Samuel E. Kalia was the next to follow the same afternoon and reached his home at Makawao that evening. Temporary repairs to Olowalu and Maalaea roads are useless and an utter waste of public money.

Superintendent Cooper should send up a road engineer to study these roads and put an estimate for an appropriation by the next Legislature so as to put these much used roads in serviceable condition that heavy rains may not again stop traffic and the mails between Wailuku and Lahaina for several days. What is desired at Olowalu are outlets into the sea through the cane fields, and it is to the benefit of the plantation in order to save its crop from destruction by freshets to donate a roadway to the Government through which the water will run unobstructed to the sea. Anyhow, all these will be studied and examined carefully by the road engineer, who will make his recommendations to his chief. It's a good thing for Olowalu that it did not rain thirteen inches in five hours, as in Nahuiku, as the whole cane field would have then been destroyed. The Maalaea road is another difficult road to keep in good repair on account of the soft alluvial soil and the present style of repairing by putting culverts and wooden bridges will never do, for the first freshet that comes will surely wash them away, as has been the experience for many years. Lack of funds prevent this important road being put in a substantial condition to defy the wrath and fury of the elements.

FORESTRY WORK CHIEF HEAD OF FEDERAL DIVISION COMING GIFFORD PINCHOT IS EXPECTED TO ARRIVE IN THE STEAMER COPTIC WHICH IS DUE TODAY.

Gifford Pinchot, head of the forestry division of the Department of Agriculture, Washington, is expected to arrive in Honolulu by the Coptic today. That steamer is reported to have left on her voyage from the Orient two days ahead of the schedule. Mail for Mr. Pinchot has been received by George R. Carter, his Yale classmate and friend. Mr. Pinchot was sent to the Philippines by President Roosevelt and went by way of Paris.

A visit from such an eminent man in that line is regarded as a happy event for the cause of forestry, which is receiving more and more attention in Hawaii every year. The recent visit of another forestry expert from the Federal department and the later affiliation of the Sugar Planters' Association with the Territorial Government in the work of promoting forest conservation and propagation are in point.

Mr. Pinchot is one of those officials whose heart is in his special work. In proof of which it is said his hand goes into his own pocket on occasions to prevent any hitch in the service under him through waiting for appropriations.

THE HOLIDAY PARADISE

The holiday number of the Paradise of the Pacific is out, and it is a beauty. There is to start with a splendid cover plate bearing a tropical park scene, with a medallion of Hawaiian curios in the middle, this in turn partly covered with a tablet inscribed with a verse by W. F. Sabin. The title is embossed in gilt. A poem by Antau T. Atkinson, entitled "Christmas Dance," backs a frontispiece map of the Hawaiian Islands. There are articles on Hawaii's chief industries, profusely illustrated with exterior and interior views of buildings and portraits of local capitalists of industry. An article on the Chamber of Commerce is embellished with portraits of officers and members. The courts, Pearl Harbor, scenery of various localities and many other subjects are treated in equally handsome style. There is a lot of history and legend by Mrs. Emma L. Dillingham, Rev. W. D. Westervelt, Horace C. Crabbe and others. Altogether the holiday Paradise is a great credit to W. M. Langton, the printer and publisher, also to Honolulu. It contains 82 pages within the cover.

ELLIS ISLAND FOR HONOLULU

If the plans of J. T. Brown, Immigration Commissioner at this port, are carried out, Honolulu will have another Ellis Island on a small scale on part of Quarantine Islands. The Marine Hospital Service through Mr. Brown and the Immigration Department through Mr. Brown have gotten together and submitted plans jointly to the authorities at Washington which it is very probable will be approved.

With the Immigration of Asiatics it is the custom now to keep rejected aliens in town until they are put back aboard the steamers carrying them back to their homes. This is not looked upon as a very satisfactory manner by the authorities, and the plan to house all immigrants on the island was made.

Two separate institutions are called for in the plan, with two landing places, so that in case of an epidemic the people on the island could be kept apart.

For the Immigration department about \$30,000 will have to be spent to carry out the plans, while for the improvement of the quarantine department much more is needed, but when all is completed Honolulu will have a quarantine station second to none in the world.

The departments at Washington are greatly impressed with the needs of Honolulu on account of the great number of Orientals coming here every month. Our arrivals being twice or three times in numbers more than any other Pacific port.

NEVADAN LIBELLED.

The case of the grounding of the Nevada has found its way to court. At 2 o'clock today a suit by Spreckels & Co. was filed against the steamer.

LITTLE BOY KILLED BY FRIGHTENED HORSE

A little Portuguese boy, Antone Vancencello, son of the Kinau street baker, was almost instantly killed yesterday afternoon on King street near South by being dragged by a horse he was leading. He had started home with the horse from Nunez' shop, where it had been shod and foolishly tied the halter rope about his body. A Rapid Transit car approaching frightened the horse, which shied, pulling the boy off his feet. The horse started to run, stepping on the boy at each plunge. He was stopped by the employees of Wright's carriage works who attracted by the boy's screams, ran to his assistance, but he was dead when they reached him.

The body was taken in charge by the police and deposited at the morgue, where it was later viewed by a coroner's jury, which brought in a verdict of accidental death.

IMPORTANT MEETING BUILDERS AND TRADERS' ASSOCIATION TOMORROW

An important meeting of the Builders and Traders' Exchange will be held tomorrow evening. It will open at 7:45 o'clock.

In the first place there will be a report from the committee appointed to confer with the Merchants' Association on the subject of permitted Chinese immigration exclusively for agricultural labor. This may provoke considerable debate.

Another local matter probable is a report from the committee on building laws to be asked from the Legislature. Several matters from different labor unions of the city are expected to come up for consideration.

An amendment to the by-laws is to be considered, for the admission as special members of members of the San Francisco Builders' Exchange. The reason for this proposed amendment is the fact that many San Francisco firms engage in contracting business here.

HARBOR ELECTION.

The election of officers of Honolulu Harbor No. 54 M. P. A., resulted in the following members being placed: F. Mosher, Worthy Captain; R. F. Bennett, First Pilot; W. Wyman, Second Pilot; M. Clarke, T. K. Clarke and J. F. Haglund, Trustees; Geo. H. Plitz, Captain's Clerk.

The installation will take place on Sunday next after which a banquet will be served at the Union Grill in honor of the new officers.

NO HAGEY REHEARING SUPREME COURT DENIES MOTION OF DEFENDANTS

JUDGE GEAR RENDERS WONG CONTEMPT CASE DECISION—THE SUMMONS IS QUASHED.

Judge Gear has rendered a decision on a matter of contempt arising from the divorce suit of Margaret Wong vs. Sam Wong. On August 4 an order of temporary alimony pending the termination of the suit was made, and on November 8 a decree of divorce was granted which ordered permanent alimony, etc.

Defendant not having paid certain arrears of temporary alimony, he was cited to appear and show cause why he should not be punished for contempt of court. Judge Gear decides: "Whether the amount could be recovered in a civil action it is not necessary to decide, but I am of opinion that a final judgment having been rendered allowing permanent alimony, and alimony pendente lite being for the immediate necessities of the party to whom it is awarded, and no action having been taken by citation or otherwise during the pendency of the action, the citation should now be dismissed."

"There is no action now pending and it seems to me that the object of the order granting alimony pendente lite—to wit, maintenance of the wife—having been obtained in some way, the defendant cannot now be held in contempt."

He quotes a Minnesota case where a husband was imprisoned for contempt in failure to pay temporary alimony, and the Supreme Court on habeas corpus ruled that after the judgment of dismissal in his case he could not be punished for contempt except by a fine and that the process could not be used to enforce payment of arrears of alimony. The Wong citation is dismissed.

Another decision by Judge Gear sustains the demurrer of defendant in the equity suit of Kauhola vs. John Thorpe. As laches cannot be imputed to plaintiff if she can give some legal excuse or explanation for delay the court while sustaining the demurrer allows plaintiff ten days to amend her complaint if desired. The suit is to cancel a deed.

The Supreme Court by Justice Perry has rendered a unanimous opinion denying a motion for rehearing of the famous Hagey Curo Co. case. The motion for a rehearing was made on the ground that a point duly argued and submitted to the appellate court was overlooked in its decision setting aside the verdict for the plaintiff against all of the defendants and ordering a new trial. This point was that defendants L. C. Ables, T. E. Cowart and J. H. Kirkpatrick, who personally executed the agreement upon which the plaintiff, Thomas Milner Harrison, brought the action, stood in a different position from those defendants who executed the agreement through attorneys, and therefore that as to these named defendants the verdict should not have been reversed. The contention is contradicted by the court, which says in the syllabus of opinion:

"Rehearing denied, on the ground that the point claimed to have been overlooked by the court in its former opinion was not in fact overlooked but was substantially disposed of by the reasoning of that opinion."

Robertson & Wilder for plaintiff; Kinney, Ballou & McClanahan, J. A. Magoon and J. Lightfoot for defendants.

Judge Gear approved the report of F. H. Loucks, master, on the accounts of Cecil Brown, administrator of the estate of William Meyer, who is dismissed.

CHINESE LABOR IMMIGRATION. AFFILIATION OF SAN FRANCISCO BODY—BUILDING LAWS.

(Continued on Page 4.)

SAVAHI VOLCANO NOT VERY SEVERE

No Loss of Life Whatever
In the Samoan
Eruption.

REPORT OF OFFICIAL
SENT TO INVESTIGATE

GOVERNOR OF ISLAND COMPELS
NATIVES TO KEEP AT WORK
ON THE PLANTATIONS.

Auckland, Nov. 25.—The Samoa "Mische Zeitung" received today by the Sonoma contains a full account of a trip made by the Government schooner "Le Aeto," having on board Dr. Trance, Government Astronomer, to Round Island, Savaii, where the volcanic eruption recently occurred. His account of the trip states: "The mountains were covered in clouds, but there was nothing else to be seen until after the approach of darkness, when the volcano became visible. From a place on the mountain about 17 English miles southwest by south from Matutu a pillar of fire ascended to a considerable height. Through a glass one could see dark and brilliant streaks, sent up by the eruptions, fall back on the volcano or its near surroundings. The eruption was repeated several times in a minute, and sometimes after an interval of a few seconds. To the sideways of and behind the pillar of fire sheet lightning was noticed at night. In Matutu a slight earthquake was felt."

"The Le Aeto, with Captain Williams aboard, made a trip round Savaii, while the others went overland to Safune, where a great number of the inhabitants of the west coast had taken refuge. A panic had taken hold of the inhabitants immediately after the beginning of the eruptions. The village of Aonu, as well as the villages of Letui and Sabina, were deserted, and large numbers of the inhabitants of Safune had fled eastward. In all the villages of the north coast the Samoans had given up their ordinary occupations, and were holding almost continuous prayer meetings."

"In Safune, addressing a gathering of Samoans, Dr. Trance explained the eruption and gave expression to the opinion that there would be no danger to the other villages."

"The Acting Governor gave orders that the Samoan people should take up their work again on their several stations, explaining that otherwise they would run short of the necessities of life, but he gave the permission to sleep elsewhere in the evening after having done their work."

"In the afternoon Safune was reached, and was found to have been deserted by the greater part of its inhabitants, and according to reports the balance of the inhabitants had intended to leave, but they remained on the representation and the example of a trader named Nelson. Here the volcano was well seen in the daytime. A high, wide pillar of smoke broadened out at the top was visible. At the under end of the pillar, close to the volcano, visitors could at times see black smoke and black patches ejected, and the fire of the volcano was visible. In a somewhat northerly direction from the volcano there was a place where molten lava was visible, while otherwise the probable run of the lava could be seen reflected between the volcano and the clouds. Each eruption was accompanied by dull thunder, sometimes a little stronger

Do Christmas Suggestions Interest You?

Slippers are always a welcome Christmas gift for both ladies and gentlemen, and we have a line to please them.

LADIES' SUEDE SLIPPERS
A slipper combining ease and beauty, made of softest leather, either grey or red; beautifully satin cushion lined.
PRICES \$1.25 AND \$1.50.

SLIPPERS FOR ELKS
Made of handsome elk-skin with initials B. P. O. E. and Elk's head burned in the leather. Very well and comfortable.
PRICE \$3.50.

Our General Slippers Stock
Consists of a full line of slippers for all purposes and in the most delicate as well as most substantial leathers.
PRICES FROM \$1.50 UPWARD.

MANUFACTURERS' SHOE CO. Ltd., 1057 Fort St.
Mail orders given prompt attention.
